

GARION Pricing Overview

One price. One system. No subscription.

A fixed-price onboarding — one-off, device-bound licence, no cloud requirement.

All prices net in EUR, plus statutory VAT. · As of: July 2026

Fixed price (one-time)

Package	Scope	Price (one-time, net)
GARION — complete system	1 org workspace · up to 3 named users · macOS Apple Silicon. Incl. DMG + production licence (.lic), onboarding day (on-site or remote) and email support.	€7,900

All capabilities included — no module is sold separately:

- Command Center, Capability Map, Evidence, Assessment, Action Board, Board Pack
- NIS2 Governance Domain included
- Temporal Governance included
- AI inventory & shadow-AI detection included
- Pre-seeded demo workspace

Two access routes

Route	For whom	Price
GARION Enterprise	For one organisation — one company, one board/leadership team. The full feature set, as above.	€7,900 one-time
GARION Advisor	For your advisory practice — multi-client. One tool, many engagements. Priced by number of clients — four packages, Starter to Partner.	Scope & price in the first call

Payment terms

Condition	Detail
Invoice	100% due on signature of the agreement
Payment method	Bank transfer (SEPA) or agreed card payment
Term	14 calendar days from invoice date
Licence delivery	Within 3 business days of receipt of payment
VAT	Depending on jurisdiction; B2B reverse charge where applicable

Founding-customer terms

Limited to our first reference clients. No subscription, no annual licence, no recurring cloud or module fees. The full feature set is unlocked from day one — one-time, not annual.

Notarized by Apple · your data stays on-device · no cloud DPA needed · no CLOUD Act exposure, because nothing leaves the device.

Scope & exclusions

- No compliance/legal certificate and no legal advice — GARION provides audit-ready preparation.
- No custom feature development, no Windows/Linux builds, no cloud hosting / multi-user server.
- NIS2 governance is an integrated domain within GARION — not a separately licensed add-on.
